Our Clients (Limited List)

ESSAR OIL & GAS, INDIA

Case study: Essar Oil & Gas

Essar Oil & Gas wanted an immersive, interactive, induction product for its new employees to gain an overview of the company's processes from 'rig to retail'. Indusgeeks customized our All Aboard solution to enable users to experience the company's corporate headquarters, rig site, refinery and retail outlets and meet the people running them virtually and familiarize themselves with their work environment and procedures. It provided an effective means for employee onboarding.

The Challenge

- Ensure effective on-boarding
- Familiarize employees with workplace
- Cross departmental immersion
- Reduce time taken for on-boarding
- Develop a scalable solution
- Improve retention & engagement

The Solution- 360° Learning

- **Self-paced:** Learning through single-player
- **Instructor-led:** Allows instructors to induct new employees in a virtual environment
- **Peer-to-peer:** Peer learning through a quiz format game
- Virtual on-boarding simulation of work environment
- Modules designed to familiarize new hires with colleagues & environment
- Employees assigned a virtual buddy for induction process
- Learning on-the-go: PC (Mobile & Tablet ready)
- Flexible for updated content

Desired Results

- 80% cost & time saving in on-boarding procedure
- Positive feedback from all stakeholders
